

Sink units

95 models. Soundproof basins, 2 depths 60 and 70 cm. Jointed sinks and rounded edges, splash guard upstand, overflow pipe and extractable perforated false bottom. Models on legs, on side panels and with doors. Accurate finishing: no sheetmetals with sharp edges. Sturdy structure made entirely of stainless steel AISI 304 Cr.Ni. 18/10. Simple maintenance, due to extractable drain trap fitting. Fitted accessories available: adjustable feet height overflow pipe and drain trap.
